Aeris Slimline Bidet

Experience a New Standard of Comfort and Hygiene

Aeris supports everyday toileting with adjustable washing, drying, and seat heating functions. Its slim design, wireless handset, and commode-compatible mode help make personal hygiene easier, more comfortable, and more independent at home.

2 YEAR WARRANTY

1 YEAR WARRANTY
Handset

Ultra-slim 93 mm Profile

The Aeris features the slimmest profile in the market, helping it blend seamlessly into the home. Soft-close hinges ensure that the seat and lid close gently with every use.

Commode Mode

The ultra-slim design allows a wide range of commodes to fit over the bidet. Commode Mode activates wash functions without requiring a seated user, disabling the user detection sensor in the seat.

Personalised Temperature Settings

Adjust the temperature of the seat and wash function to your liking.

Maintain Healthy Hygiene

Cleaning mode extends the nozzle from the bidet to make regular cleaning simple and effective.

Wireless Handset

Large, high-contrast buttons are easy to identify and use.
Users can quickly adjust the wash position, water pressure and drying settings.

Integrated Control Knob

Provides direct access to key functions from the unit itself, offering a simple alternative to the handset when preferred.

Simple to Install and Maintain

Built-in Backflow Prevention Device

Protects our clean water supply, significantly reducing setup and ongoing maintenance costs.

WaterMark

WMTS 051 52032
AS/NZS 2845 1&2
AS/NZS 3500.1

T-junction fitting/ adaptor included.

Remote Control Mount

The support for the remote control can be mounted to the wall with adhesive or screws.
