aspire™ ComfiMotion®

Companion Sleeping Configurations

Whichever ComfiMotion package you select, rest assured there is a companion solution available.

Dual Adjustable Beds

Designed to sit flush when positioned together to enable close monitoring and enhanced care. This configuration offers the flexibility of independent adjustability, without compromising on the sense of inclusivity and intimacy between partners.

Split King Upgrade Kit

Extend a Long Single into a King or King Plus size Dual Adjustable Activ Care Bed using the Split King Upgrade Kit

Split King Upgrade Kit
BEA830255

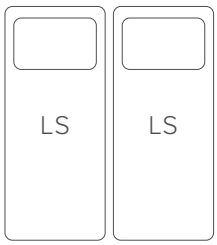

Fixed Companion Bed

Allows for an adjustable bed to sit flush when positioned next to a single non-adjustable bed. It facilitates a side-by-side sleeping arrangement at a fixed height of 370mm, without compromising on the users care and assistance requirements.

Fixed Companion Bed - LS
2030 x 920 x 370 mm
