Freestanding Headboards Allure / Chesterfield

Freestanding headboards stand independently behind the bed and can be moved or removed as needed. Contemporary in design, the headboard remains stationary while the bed is raised or lowered, not impacting any wall decoration above the headboard.

- Not attached to the bed-offers full positioning flexibility
- Quick to install or remove without tools
- Softened surface that supports pillows and protects the head
- Enhances room style without limiting bed function
- Supports high-needs equipment integration in care environments
- Available in two modern styles, both at 1140mm high and 110mm deep

- Pivoting design enhances wall protection by pivoting upon wall contact
- The Bed/Headboard can be positioned in direct proximity to a wall and still perform head-down tilt function
- Built-in handset loops (Double/Queen) keep controls within convenient reach
- Widths to match bed sizes, all 680mm high and 120mm deep
