| | 100mm | BTT150100 | | | 100mm |
| | 150mm | BTT150400 | | | 150mm |

## Fitting guide for toilet seat raisers

Toilet seat raisers increase seat height to make sitting and standing easier. To ensure a safe and secure fit, check whether your toilet bowl is round or elongated and confirm the correct length and width before selecting a height that allows feet to remain flat on the floor. Always ensure the raiser is firmly secured with no movement before use, and regularly inspect fittings to maintain stability and safety.

| Description | Code | Compatible bowl width (A) | Compatible bowl length (B) | Distance to bowl edge from mounting screw (C) | Additional Seat height from bowl (D) | Distance between armrests |
|---|---|---|---|---|---|---|
| Freedom Toilet Seat Raiser | BTT164100 | 240 - 380mm | 250 - 390mm | 110mm | 50 - 130mm | 470mm |
